

Eco-Fish – Order Form

Eco-Fish has been designed not only as a fun game for students to play competitively and learn the global issues surrounding a natural resource, it also hits many of the curriculum outcomes for your school in a coordinated way.

In addition to the Curriculum for Science, Technology, Geography, PSHE and Citizenship, Eco-fish enables you to link many of the new Curriculum Dimensions from the 2008/9 KS3 and KS4 Curriculum. In Scottish schools the Curriculum for Excellence will be enhanced by using Eco-Fish as it uses a new and innovative product for young people to learn with an exciting experiential resource.

The Eco-Fish Kits contain:

- Game Board
- Fish and rods
- Sturdy box
- Playing Cards
- CD Rom resources
- Instruction Manual
- 5 separate games
- Case study and teaching materials.
